

EDUCATION

University of California, Berkeley

August 2018 – May 2022

B.S. Electrical Engineering & Computer Science

Minor in Data Science, Certificate in Visual Design

EXPERIENCE

Facebook – University Engineering Intern

Menlo Park, CA | May 2020 – August 2020

- Prototyped, designed, & developed DeadStock, an industry-level application to track sneaker prices.
- Created interactive wireframes, & user flows using Figma, InVision Design Studio, and Procreate.
- Engineered a StockX data scraper using BeautifulSoup & Selenium to populate application data.
- Utilized SQL-like iOS databasing tools (Parse, Firebase) to perform User Auth and data management

Blue Cheetah Analog Design – Software Engineering Intern

San Francisco, CA | May 2019 – August 2019

- Developed a parser and emitter for serialization language YAML in C++, writing unit tests to improve/exceed performance of existing libraries.
- Redesigned corporate website for rollout using HTML/CSS and Javascript
- Created additional marketing and presentation materials using Photoshop & Illustrator.

EXTRACURRICULARS
